2015/16 COLLECTION

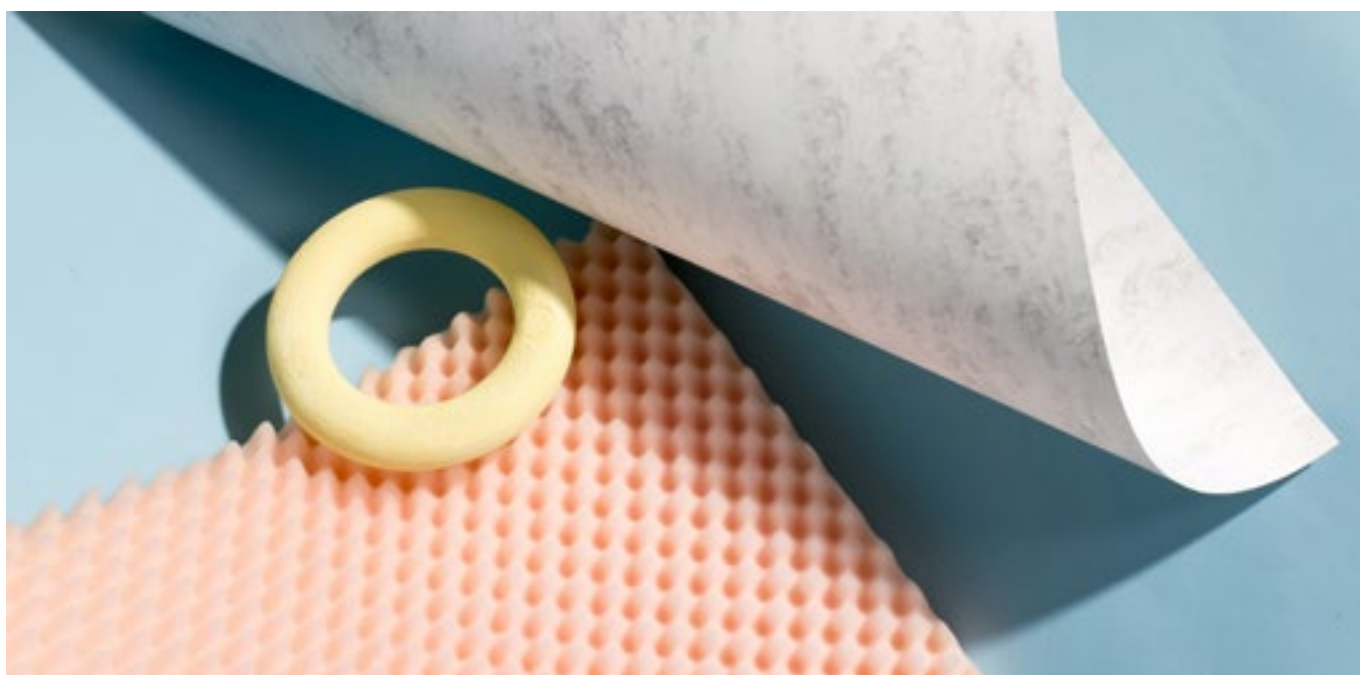

The current Collection continues the experimentation with mixed materials and material thicknesses.

The metal frames are drawn with thin and precise lines, which seem to frame the air itself. The distinctive lightness is accentuated by see-through spaces. Acetate pieces are inserted into the metal frame without any screws.

The cellulose collection is elaborated like a piece of sculpture. Mini visors appear on closer inspection. Colour combinations are carefully chosen and invisibly laminated to create contrasts and provoke tensions that dissolve harmoniously on the face.

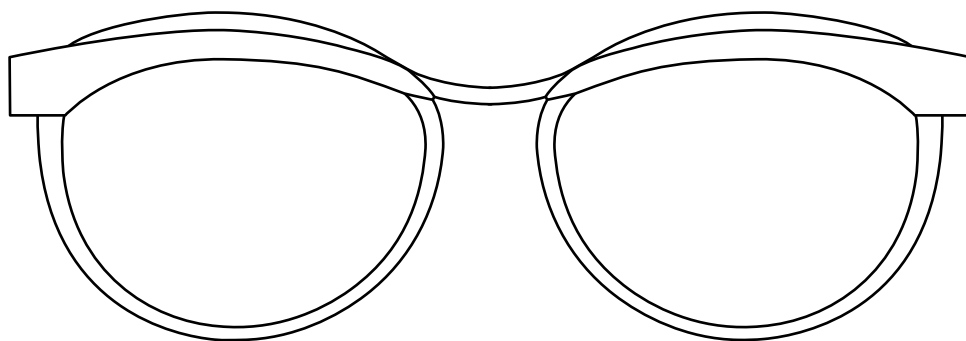

VW Eyewear is for self-confident urban people with a penchant to diversity.
