

Fusion Collection

RANDOLPH®
Handcrafted American Eyewear

Randolph Engineering has put a new spin on two of their classic, made in America styles- the P3 and the Aviator. The Fusion Collection combines jewelry-grade plated metal frames adorned with Mazzucchelli acetate inlayed by hand, for a head-turning sophisticated look. Our gradient Life Lenses™ come in four view-enhancing colors with a reflection reducing AR coating and provide superior optical clarity and lightweight durability. Easy to adjust frames and embedded silicon nose pads provide a fit that is easily customizable.
