

NEW!

INFINITY LENS Collection

RANDOLPH®
Handcrafted American Eyewear

The illusion of vanishing at the frame's edge.

Reaching both ends of the color spectrum, 6 new lens colors offer a pop of color with a subtle metallic flash gradient lens coating. The reflective metallic surface of each lens gives the illusion of vanishing at the frame's edge. The possibilities are infinite.

- **Life Lens™ Technology** - superior lightweight material with precision optics.
- **Oleophobic coating** guards against hand and face oils.
- **Anti-Reflective premium coating** aids in eye protection, comfort and longtime wear.
- **100% UVA/UVB** protection.
- **On-trend** lens colors and coatings.

Life Lens™ Technology

Infinity Lenses with Life Lens™ Technology (15% lighter than PC), are made from a hypoallergenic macromolecule that couples optical clarity with lightweight durability. Our lenses undergo 12 rigorous tests including accelerated weathering, impact resistance and steel wool abrasion to ensure integrity and lasting strength. 100% UVA/UVB protection.

Lens & Frame Combinations Fashioned by Color Experts

Each lens is perfectly paired with RANDOLPH's jewelry-grade frame finishes and classic eye shapes to accentuate the lens even further.

(Select) lenses paired with these eye shapes in complementary finishes: Aviator, Aviator II, Amelia, Archer, Concorde, Coronado, Corsair, The Hawk, Intruder, P3, P3 Shadow, Sportsman.
